

Comics Editor 3.0

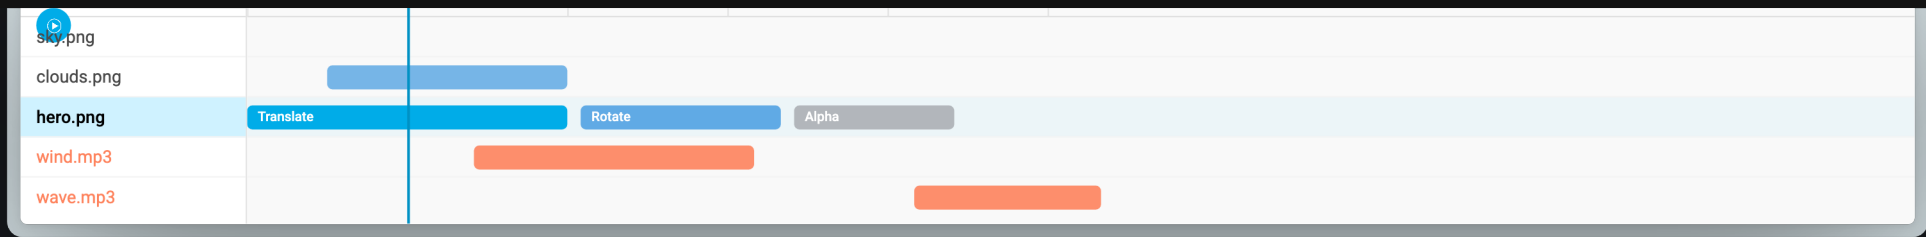

Same tools as v2.8 — layers, sounds, per-language artwork, Translate / Rotate / Scale / Alpha animations, puzzle mode — rebuilt as one calm, timeline-driven workspace that works with a mouse on Desktop and with touch on iPad. Sky-blue accent, cloud canvas, Roboto, coral for destructive actions.

Desktop workspace

Three panes — Scene · Canvas · Properties — over a global timeline. Hover states active; 1440x920.

Comics document · layer selected

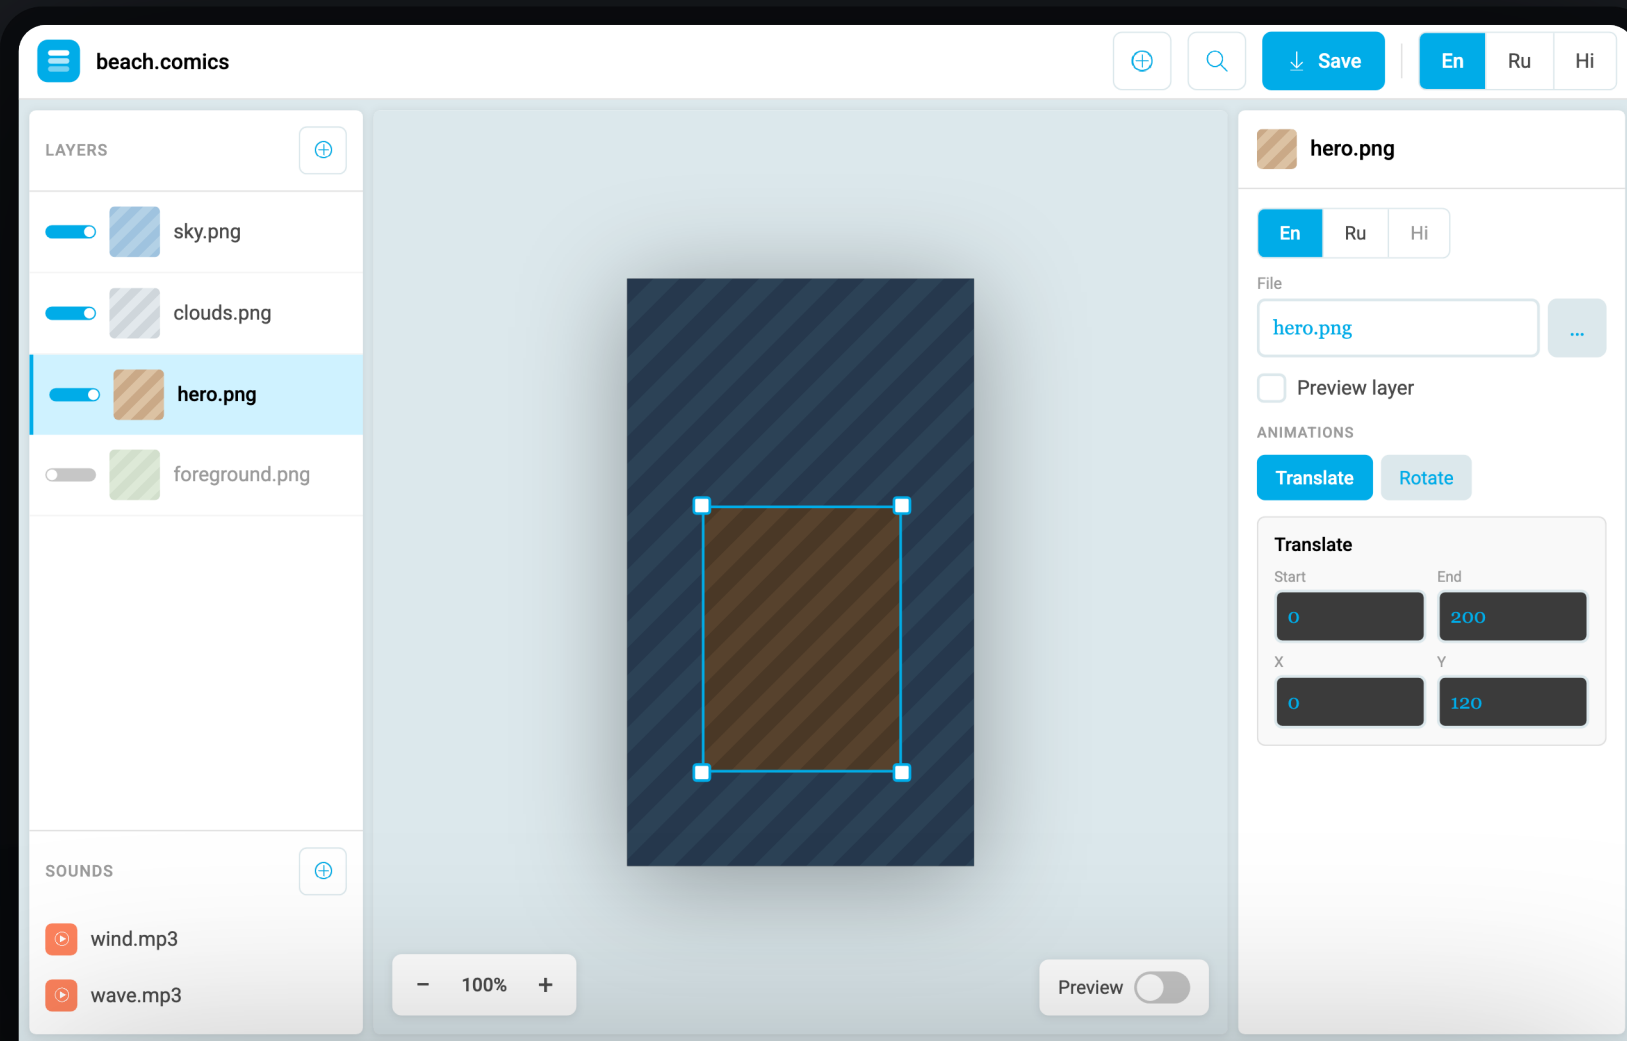

iPad workspace

Landscape split view — collapsible Scene rail, touch handles, Properties as a right sheet, timeline docks to the bottom. 44px minimum targets.
